

Intervention Mapping Worksheet

Identify one problem, risk factor and local condition from your logic model, map interventions (activities) for each of the 7 behavior change strategies listed. Next take one of the listed interventions (activities) that would result in a Community Change and map out possible Community Actions to take to achieve the intended change.

Problem/Goal:

Risk Factor:

Local Condition:

Strategy						
Modify/Change Policy	Physical Design	Changing Consequences	Enhance Access/Reduce Barriers	Provide Support	Enhancing Skills	Provide Information
