

### **Marijuana Logic Model**

Problem Statement: The problem in our community is that too many youth use marijuana.

**Root Cause #1:** Favorable norms for use of marijuana

Local Condition #1: limited restrictions of marijuana in public space use

Local Condition #2: Potential advertising that can reinforce the pro-social norm for use

**Root Cause #2:** Potential illegal marijuana availability

Local Condition #1: placement of marijuana dispensaries is not adequate to deter illegal distribution

Local Condition #2: current ordinance allows for cash only physician practices?
