

Sustainability Plan for (INSERT COALITION/ORGANIZATION NAME)

1. To maintain the activities associated with the overall strategy plan, the following resources are required:

Provide a general narrative about what needs the organization has to sustain the organization and its work, an example is provided below. Then list the resources based by topic.

Sylvania Community Action Team is fortunate to have a community that supports and values prevention. Multiple entities collaborate to provide resources for substance prevention. The following resources are necessary for S.C.A.T. to continue prevention efforts in the Sylvania community. The support of the school system provides in-kind office space and sites for special activities/projects. Youth and adults volunteers are key to help implement efforts of the coalition. S.C.A.T. values the importance of the coalition evaluation and sustainability committees as a means of success for the coalition in the future.

Space	Supplies	People
<p>What kind of space do you need to hold meetings and to operate the organization?</p>	<p>What supplies are needed to operate the day to day operations?</p>	<p>Who do you need involved to carry out the work of the coalition?</p>
Communication	Training	Transportation
<p>What needs to be sustained to communicate the work of the coalition?</p>	<p>What training needs does coalition staff and members have?</p>	<p>What transportation needs will need to be met?</p>

2. **Outcomes and strategies identified that need to be sustained to keep substance abuse rates from increasing or to continue to drive them down are:**

List the activities you plan to sustain based on goal/problem and the associated local condition they will address. The table below provides an example. Information can be found on the coalition's logic model and action plan.

Goal: To reduce underage drinking (Name goal or problem you want to address)

Local condition/outcomes: Stores do not check ID	
(Name specific local condition you will address with sustained activities)	
Activity	Strategy
Name of Activity (list each activity separately)	Name of specific strategy (i.e. Access/Barriers, Building Skills, Providing Info, Policy Change, etc.)
Provide beverage server/vendor training	Enhancing skills
Compliance Checks	Enhancing Access/Reducing Barriers
Provide ID checkers	Enhancing Access/Reducing Barriers

Goal:

Local condition/outcome:	
Activity	Strategy

Goal:

Local condition/outcome:	
Activity	Strategy

3. Resources required in future to keep these strategies or changes in place:

What is needed to sustain the activities you identified in question 2.

Ask	Share	Earn	Charge
Who may you ask for help? (Both human and financial)	Who will you collaborate or share resources with?	What might you do to Earn money?	What could charge for to help sustain efforts?

4. Funding strategies & potential partners:

List the new and current funding streams to be sustained along with potential partners.

Ask	
Funding Strategy	Potential Partner
Share	
Funding Strategy	Potential Partner
Earn	
Funding Strategy	Potential Partner
Charge	
Funding Strategy	Potential Partner

5. Case Statement:

Develop a paragraph or two that describes the community need, the impact of the coalition's work and the consequences of the coalition's work not continuing. Below is a template and an example.

The prevention efforts of XYZ coalition are important to our community. We have contributed to a community environment that supports appropriate decisions regarding substance use among our youth and adults. It is imperative to sustain the coalition work in XYZ community as limited prevention strategies regarding substance use would occur on a continual widespread basis. To ensure this continuation we need your help in sustaining our qualified staff, office space, utilities and supplies.
